### WATERBURY.

While in London this summer, George H. Wilder told to Melville & Co. "The Cricket's Serenade," which was played by Miss Dorothy Kellogg, daughter of Rev. and Mrs. F. B. Kellogg, at the June recital in Burlington. This is dedicated to Miss Kellogg, which is a nice compliment to a deserving girl. Mr. Wilder's arrangements for teaching in Waterbury are now perfected, his time being limited here, owing to rush of work in Burlington. Every half-hour is taken here, people coming from Waitfield, Montpelier and Stowe to take. Mr. Wilder has recently returned from a summer in London, where he studied with the great vocal teacher, William Shakespeare, also pianoforte with Mrs. Shakespeare-Brown, who was for some years a pupil of Clara Schumann.

### WILLIAMSTOWN.

Mrs. Barna D. Flint has started on her return to Denver, Col.

Mr. and Mrs. Daniel C. Townsend have lately visited their son in Plattsburg, N. Y.

A boarder at the Monument house tells us that a first-class table is set there.

Mr. and Mrs. Enos F. Walker are accompanied in their trip West by a Miss Bixby of Chelsea.

We are glad to hear that Arthur York, at the Heaton hospital, has seemed a bit better since our last item.

It looks as if the Lynde store company was making preparations to handle stove wood, by the putting up of lots of shed room.

Henry Holt, son-in-law of Charles L. Hayward, who has been working in Barre City at the carpenter's trade in late months, has just moved his family to that place.

Our citizens, some of them, are having the pleasure of visits with our old townsfolk, Mr. and Mrs. Samuel Foster, now of Duxbury. Mr. Foster still owns a good farm in our town, and it is good to see his cheery face in our midst.

We are pleased to hear that our young townsman, Frank, son of Mrs. Henry F. Erskine, has just had another promotion in Whittier, southern California, to the place of manager of a big fruit association there. It seems to have been born in him.

Hereafter our union chorus will meet each Monday evening in the parlors of the Congregational church for practice. Already this chorus has justified its existence in its musical work done here, and we expect its future will be even more brilliant than its past.

Our old friend and townsman, Charles Crane of Dexter, Ia., reached Seattle, Wash., on Saturday, the 13th inst., where he has a son in the employ of the Chicago, Milwaukee & St. Paul R. R. Mr. Crane has a son in the lumber business in Omaha and another son in the same business in Iowa. He finds business rushing in that section. A little later Mr. and Mrs. Crane will visit Los Angeles, Cal. Speaking of the grand scenery as found in Canada and Washington on his trip, he says "it makes Mt. Washington in New Hampshire look like a mole hill."

Carl W. Sawyer was called a day or two ago to Granville, N. Y., by the death of his wife's father, John Roberts, who died on Sunday last of consumption. Mr. Roberts was a Welshman and was at one time an esteemed resident of our place. He found employment at one of our granite sheds and was greatly crippled in one hand by an accident in connection with a derrick. After moving, years ago, to Granville, N. Y., he was employed in connection with the slate industry, to which he had been bred, we think. We do not recall any Mr. Roberts.

### TURKISH RED TAPE.

Getting the Kinks Out of a Custom House Tangle.

In the far east rules and restrictions may be made to yield to influence with a latent force behind it, as instanced by this serio-comic incident found in Captain A. B. Townsend's book, "A Military Consul in Turkey." A certain highly influential foreigner at Adrianople wanted a Christmas tree and ordered one from Sofia to come by train, but when the tree, an unpretentious little fir about ten feet high, arrived at Adrianople station some one discovered that it was illegal to receive "plants" from abroad.

"Yasak" (it is forbidden), said the custom house.

"Yasak," echoed the sentry on duty. The foreigner said whatever was the equivalent to "rubbish" and demanded the tree.

Here was a nice quandary for the authorities. Evidently it was a most fearful thing to receive a tree from abroad, and yet the consigne was capable of getting some one into very serious trouble if he did not get his tree, and he said he must have it within forty-eight hours.

Some one at the custom house soared above the difficulty. The tree was sent on to Stamboul on the Orient express, an eight hours' journey. It came back to Adrianople by the next train, and the person for whom it was intended received a notice that "a tree from Constantinople" had arrived for him and would at once be handed over to his messenger.

So the wretched little Bulgarian tree had become a Turkish one, brought from Constantinople, and by that means it satisfied officialdom and served its purpose in the end.

Real Modesty.

"An actor should be modest, and most actors are," said a prominent one at a luncheon in Pittsburgh. "But I know a young actor who at the beginning of his career carried modesty almost too far."

"This young man inserted in all the dramatic papers a want advertisement that said:

"Engagement wanted—small part, such as dead body or outside shouts preferred."

Importing Burdock Root.

Notwithstanding the thousands of acres of burdock that yearly mature their unsightly crop of seed in vacant places all over the country, we nevertheless import annually from European countries 135,000 pounds of dried burdock root, those preparing it receiving from 3 to 8 cents per pound for it.

Big Farm For Students.

James R. Haggis, noted horseman, farmer and owner of the Elmendorf farm in Fayette county, which comprises 5,000 acres of the finest land in Kentucky, has agreed to let the students of the state university have the use of Elmendorf in order to study agriculture to better advantage.

### Proving a Statement.

A certain minister, who is an emphatic preacher, is at times at a loss to give his utterances proper weight. For instance, he'll say:

"This statement is as true as is the night which will follow day," or "as true as that the trees will bud in spring."

Sometimes it happens that the doctor has more statements than he has illustrations to give them weight. On one such occasion he remarked, "This is as true as the"— Here the doctor halted. He paused a few moments, and then his face illumined—"as true as is the statement that some member is yet on his or her way to church."

A few moments later a lady entered the edifice and swept grandly up the aisle. The doctor's face assumed an "I told you so" appearance. The congregation began to smile, then to laugh. Sympathy for the embarrassed parson uncontrollably manifested.

### The Parrots of Mexico.

What the wild pigeon once was in point of numbers to the United States the parrot, of varying shades of color and all sizes, is to old Mexico. Flights of these birds frequently darken the midday sun in the hot country, and they become so tame around the camps of engineers that the birds are given individual names and soon become regular pets. Whenever the parrots desert the forest and alight on the ground in the open spaces of the jungle the natives recognize their actions as sure warning of an impending earthquake. American engineers endorse this belief and assert that serious accidents which might have been averted have resulted when the warning of the birds was noted, but unheeded.
